

General Assembly – Membership Brainstorm

12 February 2013 18:00-20:30

Einstein Room @ TU Delft Library – Prometheusplein 1 Delft

Overview

This General Assembly marks a potentially crucial point in VOX Delft's history. Since its inception as an association, VOX has functioned as an activity commission rather than a community. Today a small group of members and non-members will determine whether the ideas of VOX as a community is salvageable and how the organisation will continue from here. If we decide to stop focussing on community, a contingency must be defined. The Board feels it has a huge need for 'outside' input on this matter.

Agenda

- **18:15** | Introduction and opening of the Assembly by the Chairman
- **18:25** | Proposal: Grant all those in attendance voting power for the duration of the General Assembly. (Normally voting power is only granted to full members)
- **18:30** | Poll – Gathering initial reactions and feedback
- **18:50** | Open discussion and brainstorm – Will VOX Delft continue as an association with members after today? This discussion is concluded by a final, binding vote that determines the future of VOX.
- **19:10** | Follow up-discussion
 - If we decided to continue with membership: Fleshing out a more detailed roadmap for the next 5 months.
 - If we decided not to remain an association with members: Defining a list of what VOX will continue to do instead.
- **19:30** | Final statements and closing of the Assembly
- **19:45** | Chilling out with drinks and some snacks provided by the Board.
- **20:30** | Room closed.
